## Gynecology and obstetrics book pdf dc dutta

DC Dutta's Textbook of Obstetrics is the eighth edition of this comprehensive and highly illustrated textbook. Thoroughly revised and updated, the book spans 42 chapters, incorporating new material and the latest advances in the field of obstetrics. New topics in this edition include prenatal genetic counselling, screening and diagnosis, whilst progress in technology is recognised with the inclusion of Doppler studies, MR images, microphotographs, data graphs and laparoscopic images. This highly detailed book is formatted for ease of reference, with expanded contents and index, and colour coded headings and key points at the end of every chapter, highlighting essential information. A list of questions at the end of the book allows the reader to assess their own understanding. A list of abbreviations, updated reviews, relevant websites, and over 500 colour images further enhance the text. The book also includes an interactive DVD-ROM. DC Dutta's Textbook of Obstetrics features the latest guidelines from professional and academic organisations including RCOG, ACOG, WHO, FIGO, NICHD, CDC, NICE, ICOG and DIPSI, making this an authoritative guide to the field of obstetrics. Key Points Fully revised and updated new edition New chapters include prenatal genetic counselling, screening and diagnosis Previous edition published 2014 Over 500 colour images and illustrations, plus interactive DVD-ROM Latest guidelines from RCOG, ACOG, WHO, FIGO, NICHD, CDC, NICE, ICOG and DIPSI Home > Medical > Surgical Sciences > Obstetrics & Gynecology > DC Dutta's Textbook of Obstetrics 9th edition 2018 Home > Medical > Surgical Sciences > Obstetrics & Gynecology > DC Dutta's Textbook of Obstetrics 9th edition 2018 22% off! ₹1,395.00 ₹1,088.10 Information Name DC Dutta's Textbook of Obstetrics 9th edition 2018 ISBN-15 9789352702428 Author Hiralal Konar Edition 9th Publisher Jaypee Publish Year 2018 Only logged in customers who have purchased this product may leave a review. Crafted by Regulus. by Hiralal Konar, DC Dutta Gynecology is the medical practice dealing with the health of the female reproductive systems vulva, vagina, uterus and ovaries. The vulva includes mons veneris, labia majora, labia minora, clitoris, vestibule and conventionally the perineum. The external genital organs start developing almost simultaneously with the development of the internal genital organs. Both the motor and sensory part of the somatic supply to the pelvic organs is through pudendal nerve, ilio-inguinal nerve, genital branch of genitofemoral nerve and posterior cutaneous nerve of thigh. Developmental anomalies of the external genitalia along with ambiguity of sex are usually genetic in origin. Major anatomic defect of the genital tract is usually associated with normal gonadal function and urinary tract abnormalities. The chapter also deals with the aspects of puberty, menopause, abnormalities related to the reproductive systems, menstruation, sexually transmitted infections, pelvic infection, medical examination of the patient, different methods used in diagnosis, contraception and current topics in gynecology. ADD TO FAVOURITES Author/Editor Dutta DC, Konar Hiralal ISBN 9789351520689 Speciality Obstetrics and Gynecology DOI 10.5005/jp/books/12047 Edition 6/e Publishing Year 2013 Pages 702 Gynecology is the medical practice dealing with the health of the female reproductive systems vulva, vagina, uterus and ovaries.
